Terminal Disclaimer

The terminal disclaimer filed on February 28, 2006, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,289,456 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

1. Claims 1-4, 7-10, 12, 13, 15-18, 20-22, 25, 27, 30, 45, 47, 48 and 50 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 15, 21 and 45:

The closest art of record is the Kuo et al. reference, U.S. 6,289,456, which has been overcome with a properly filed terminal disclaimer. None of the other references cited in the prior action combine to disclose disconnecting a counter within a detection circuit to retain data related to when a component was removed and storing the retained data in non-volatile memory, similar to the reasons for allowance in the 6,289,456 patent.

An updated search did not uncover any new prior art. No art disclosing, nor motivation to combine has been found which recites the previously stated limitations.

All other pending claims are dependent upon allowable claims 1, 15, 21 and 45 and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
